CAREER OBJECTIVE

Computer Engineering student with hands-on experience in Java, Spring Boot, REST APIs, JPA/Hibernate and MySQL. Experienced in developing backend applications, implementing authentication and authorization, building RESTful features and integrating AI-powered functionality using Google ADK. Seeking a Trainee Software Engineer opportunity to contribute to scalable software solutions and grow in a collaborative engineering environment.

EDUCATION

Bachelor of Engineering (Computer Engineering)

Sinhgad Academy of Engineering, Pune
CGPA: 7.00 | Expected Graduation: 2027

Higher Secondary Certificate (12th)

Rajarshi Shahu Maharaj Junior College, Kaudgaon Huda
Percentage: 77.33%

Secondary School Certificate (10th)

Maharashtra Vidyalaya, Moha
Percentage: 89.60%

TECHNICAL SKILLS

Programming: Java,

Backend: Spring Boot, Spring Data JPA, Hibernate, REST APIs, JDBC

Authentication & Security: JWT, Refresh Tokens, Role-Based Authorization

Database: MySQL, SQL

AI: Google ADK (Agent Development Kit)

Tools: Git, GitHub, Postman

Core Concepts: DSA, OOPS, SQL, & REST API, Collection & Exception Handling, Multithreading

INTERNSHIP

Technosignia — Full Stack Java Developer Intern

Duration: 3 Months

- Worked on Java and Spring Boot for backend application development.
- Developed and tested REST APIs using Spring Boot and Postman.
- Worked with Spring Data JPA and Hibernate for database operations.
- Worked with SQL and MySQL for database management and queries.
- Applied Java OOP concepts while developing backend functionality.
- Used Git and GitHub for version control.

PROJECTS

Student Management System

Tech Stack: Java, Spring Boot, REST APIs, JPA/Hibernate, MySQL, JWT, Google ADK, Postman

- Developed a full-stack Student Management System using Java, Spring Boot, REST APIs, JPA/Hibernate and MySQL for efficient student record management.
- Implemented JWT authentication, refresh tokens and role-based authorization with separate access for ADMIN and USER roles.
- Built REST APIs for registration, login, CRUD operations, search, filtering, pagination, sorting, profile management and password management.
- Integrated an AI-powered student assistant using Google ADK (Agent Development Kit), enabling students to ask questions in natural language and receive relevant responses.

- Implemented profile photo upload, secure session management and API testing using Postman.

AI Resume Analyzer using Google ADK

Tech Stack: Python, Google ADK, FastAPI, HTML, CSS, JavaScript

- Developed an AI-powered application to analyze resumes and provide relevant feedback.
- Built an AI agent using Google Agent Development Kit (ADK) for resume analysis.
- Integrated the AI agent with a FastAPI backend for processing resume analysis requests.
- Created a web interface using HTML, CSS and JavaScript for user interaction.

CERTIFICATIONS

- Data Structures and Algorithms (DSA)
- Java Programming
